

## Design Thinking for Social Good

### Where design thinking can have an impact:

- Domestic violence
- Food desert and access to quality nutrition
- Gentrification
- Homelessness
- Immigration
- Poverty
- Public health
- Race & gender equality
- Recycling and conservation
- School To prison pipeline
- Support for artists
- Veterans issues
- Voter registration and participation
- Water access and safety

Any reality that is unmet or needs clarity, advocacy, and/or a voice

### More ideas for Social Practice:

- Education
- Senior living
- Disability issues
- Urban planning
- Affordable housing
- Transportation
- Global warming
- Drug rehabilitation
-
