

Short List of Artists for Painting II and III

Each student will be expected to have some understanding of contemporary painting. This list represents the artists chosen to represent the diverse ways painters today are approaching their media. You will need to choose at least three artists from this list who interest you.

You should plan to do:

1. some research about the artist and their work
2. write a short discussion of each one
3. their work, their ideas, their style, etc
4. how it relates to you.
5. notice the dates of the works

As we continue through this semester you will find other painters to reference but at this early stage, find three on this list. I suggest you do a little research before you decide.
