

PLACE IN THE WORLD

Find your place in the world and communicate through images, what it is about this spot that makes it yours.

This assignment is based on the idea that each of us has a particular place in the world where we feel completely ourselves. It is one that exists in mythic stories throughout time.

To find that special spot think of a place where you simultaneously feel connected yet separate: a place that reinforces your sense of self—perhaps a place where you feel safe or a little uncomfortable.

You may not find your spot the first time you try.

There are two things that regularly go wrong. *The first thing is that you do not make sufficient effort.*

- You hop in the car and drive aimlessly, or walk in circles over familiar ground.
- The *other mistake is to find the spot but visit it in an inattentive mental state.*

In this assignment you must learn conscious and directed seeing. This is a 2-week assignment. You should have two different contact sheets showing variety in place, image, point of view, etc.
