

Digital Photo Assignment Sheet for Stillness I

Look at the images on this sheet. Identify the artist. Discuss how each image defines the concept of 'stillness'. Be specific. In each case, discuss the way the photographer used light and how the composition affects both the meaning of the picture and how it relates to 'stillness'.

Floods Mall, Bea Neattles

Untitled (from the Americans), Robert Frank

Asking Questions Without Answers, Duane Michaels

Best Shot, Doug DuBoiss

These images consist of interiors, and outside landscape. Some have people and some have other elements. Given that all photographs can be said to stop time, and hence, represent a 'still' moment, think more about each image so as to expand the simple notion that action is stilled.

Learn more about these photographers and see more of their work by going to Blackboard or Google.
